

CATALOGO | CATALOGUE

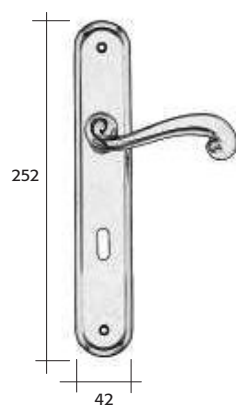

Le nostre maniglie nascono così...
...un'idea, uno schizzo...

Our handles are created in this way...
...an idea, a sketch...

L'idea prende forma ...

The idea takes shape ...

una maniglia durevole nel tempo.

a hard-wearing handle.

L'AZIENDA

COMPANY PROFILE

La nostra, è la storia di una società che da oltre 40 anni ha prodotto maniglie nel proprio stabilimento posto nel cuore della Toscana, seguendo gli antichi procedimenti lavorativi della "maniglieria", realizzando prodotti in fusione di ottone, rifiniti e montati manualmente da personale altamente qualificato.

Una vasta scelta di maniglie che si rifà ai modelli della tradizione locale e una nuova e più vasta gamma che con le più svariate finiture è in grado di soddisfare ogni richiesta ed esigenza di gusto e ambientazione.

Moderne attrezzature e l'abile controllo dell'uomo, unitamente alla sapiente scelta della materia prima garantiscono la bontà di ogni singolo componente e determinano un elevatissimo standard qualitativo dell'intera nostra produzione, riproposta, ora, dalla ditta SALICE OSCAR - Maniglieria - che nel 2016 ha acquisito il marchio e l'intera gamma di prodotti Pam.

Pam Fonderia da sempre ha sviluppato il proprio mercato garantendo oltre alla qualità del prodotto, un attento servizio al cliente, fornendo prodotti di nicchia di pregevole design e bontà e mettendosi a disposizione anche per specifiche richieste sviluppabili su disegno; le stesse qualità che hanno, da sempre, contraddistinto la famiglia Salice, da tre generazioni presente nell'artigianato italiano, e che con assoluta certezza verranno garantite nel tempo.

For over forty years, our company has been manufacturing handles at its factory in the heart of Tuscany, in keeping with old handle manufacturing processes, and producing cast brass products, finished and assembled manually by highly qualified staff.

A wide range of handles that refer to traditional local examples and a newer, wider range that, with its various finishes, can appeal to any taste and fit into any environment.

Modern equipment and man's dexterity, together with a handpicked selection of raw materials, guarantee the quality of every single part and determine the very high quality standard of our entire production, reproposed today by the company SALICE OSCAR -Maniglieria- who in 2016 bought the brand and the entire product range.

Pam Fonderia has always developed its market by guaranteeing not only the quality of its products but also customer care, supplying well designed, high-quality niche products and customizing designs; the same qualities that have always distinguished the Salice family, since three generations in the Italian craftsmanship, and we will continue to ensure over time.

SALICE
GIUSEPPE

La scelta e l'approvvigionamento della materia prima è il primo passo che effettuiamo con cura per poter produrre le migliori maniglie possibili, infatti il metallo puro è l'elemento base previsto per la produzione delle nostre maniglie fuse nel pieno.

Il nostro reparto stilistico è in grado di sviluppare, oltre alla creazione di linee interne, anche specifici progetti su richiesta, ottimizzando le fasi produttive e l'utilizzo della materia prima, nell'ottica di fornire un prodotto gradevole alla vista, durevole nel tempo e di ottimo rapporto economico.

Il nostro forno di fusione, garantisce qualità altissima per gli sborzi delle maniglie che verranno ripuliti prima tramite i più moderni e sofisticati robot e successivamente con passaggio manuale che perfezionerà il lavoro delle macchine.

La personalizzazione delle maniglie nelle varie finiture è gestita manualmente ed ogni procedimento è curato da personale di grande esperienza e competenza, attrezzature e passaggi specifici sono a garanzia di lavorazioni accurate e durature.

Il controllo qualità su ogni singolo pezzo è eseguito al finale della linea produttiva e successivamente in modo più attento al momento del confezionamento per lo stoccaggio all'interno del nostro magazzino.

Il magazzino è in grado di gestire l'inoltro dei prodotti pronti con spedizioni tramite corriere anche con consegne nell'arco delle ventiquattro ore, ordini programmati o di più importante entità saranno gestiti da corrieri convenzionati, partner che nel tempo hanno garantito un servizio celere e qualificato.

Infine, il nostro servizio cortesia è in grado di accogliere le più varie richieste e fornire tutte le informazioni e delucidazioni che potranno soddisfare dubbi e curiosità.

IL CICLO PRODUTTIVO

PRODUCTIVE CYCLE

The first step is to handpick and procure raw material to be able to produce the best possible handles. Pure metal is indeed essential to the production of our fully cast handles.

Our styling department is not only capable of creating whole lines but also of customizing, optimizing production stages and the use of the raw material with a view to supplying hard-wearing, reasonably priced, attractive products.

Our smelting furnace guarantees top-quality handle blanks that are finished by means of the most modern, sophisticated robots and then manually to perfect machining

Handles are personalized in various finishes manually and competent, highly experienced staff attends to every process. Equipment and specific passages guarantee accurate, hard-wearing manufacture.

Quality control is conducted on every single piece at the end of the production line and then more carefully during packaging for warehousing.

Our warehouse is capable of forwarding products through couriers even at twenty-four hours' notice. Couriers with whom we have arrangements and who have guaranteed speed, qualified work over the years shall handle programmed or larger orders.

Lastly, our courtesy service is capable of satisfying all sorts of requests and providing all the necessary information and explanations to quell doubts and curiosity.

Ottone lucido

Finitura denominata anche "ottone naturale". Per ottenere tale finitura i nostri prodotti, dopo la smerigliatura, vengono sottoposti al trattamento con paste lucidanti tanto da creare una naturale lucentezza. L'applicazione di detta finitura si consiglia sia per interni che per esterni, dato che l'ossidazione che subisce può essere rimossa con adeguati prodotti di lucidatura di facile reperibilità in commercio.

OL

Polished brass

This finish is also known as "natural brass". To obtain this finish, our products are polished after sandpapering to create a natural sheen. This finish is recommended for interiors and exteriors as any oxidation can be removed with adequate polishes that are easy to find on the market.

Ottone grezzo

Dopo la smerigliatura il prodotto viene incerato a mano. Tale lavorazione rende l'ottone poroso in modo da evidenziare la propria naturale opacità. Il mantenimento viene garantito da una periodica pulitura con un panno morbido e poche gocce di un leggero sgrassatore.

OG

Unrefined brass

After sandpapering, products are hand waxed. This process makes brass porous, highlighting its natural opacity. Maintenance is guaranteed through periodic cleaning with a soft cloth and a few drops of a light degreaser.

Ottone lucido verniciato

Il prodotto dopo la smerigliatura, la lucidatura e lo sgrassaggio, viene protetto da una vernice trasparente fissata mediante cottura a forno ad alta temperatura. Il prodotto con tale verniciatura è adatto ad un utilizzo per interni. Per la pulitura utilizzare un panno morbido senza applicazione di alcun prodotto.

OV

Lacquered brass

After sandpapering, polishing and degreasing, the product is protected with a transparent varnish baked at high temperatures. With this varnish, the product is suited to interiors. To clean, use a soft cloth without applying any product.

Ottone satinato

A differenza dell'ottone lucido verniciato, dopo la lucidatura, il prodotto viene sottoposto ad una spazzolatura a mano per poi essere sottoposto alla regolare verniciatura. L'effetto ottico sarà indubbiamente vellutato. Per la pulitura utilizzare un panno morbido senza l'ausilio di alcun prodotto.

OS

Satinated brass

Unlike shiny-varnished brass, the product is hand-brushed after polishing and then varnished, producing a velvety effect. To clean, use a soft cloth without applying any product.

Ottone cromato lucido

La finitura si ottiene con un trattamento galvanico. Ha una resistenza all'usura, all'ossidazione, all'abrasione. Si consiglia questa finitura sia per interni che per esterni. Per la pulitura si consiglia l'uso di un panno morbido imbevuto di alcool.

OC

Chromed brass

The finish is obtained through galvanisation. It resists wear and tear, oxidation and abrasion. This finish is recommended for interiors and exteriors. To clean, use a soft cloth drenched in alcohol.

FINITURE FINISHES

Ottone cromato satinato

Anche detto "ottone cromato spazzolato".

La finitura si ricava da un trattamento galvanico ed, a differenza dell'ottone cromato lucido, ha una tonalità opaca da evidente satinatura.

Per la pulitura si consiglia l'uso di un panno morbido imbevuto di alcool.

OCS

Satined chromated brass

Also known as "brushed chromium-plated brass".

The finish is obtained from galvanisation and, unlike shiny chromium-plated brass, has a dull finish created by satin finishing.

To clean, use a soft cloth drenched in alcohol.

Ottone nichelato

La finitura si ottiene da un trattamento galvanico. A differenza dell'ottone cromato lucido ha una tonalità opaca omogenea.

Di particolare delicatezza ma indubbio fascino visivo e tattile.

Per la pulitura si consiglia l'uso di un panno morbido imbevuto di alcool.

ON

Nickel brass

The finish is obtained from galvanisation.

Unlike shiny chromium-plated brass, it is dull all over.

It is particularly delicate but eye-catching and soft to the touch.

To clean, use a soft cloth drenched in alcohol.

Ottone bronzato

Il prodotto dopo la smerigliatura, lucidatura e spazzolatura effettuata a mano, viene immerso in apposite vasche. Dopo tale applicazione viene sottoposto ad una ulteriore spazzolatura a mano per poi passare alla regolare verniciatura. Tutti i citati passaggi rendono l'articolo particolarmente caldo alla vista, in quanto, le sfumature, mai omogenee, renderanno ogni pezzo unico nel suo genere. Per la pulitura si consiglia un panno morbido senza alcun prodotto.

OB

Bronzed brass

After sandpapering, polishing and hand brushing, the product is immersed in special tanks.

It is then hand-brushed further and varnished.

The aforementioned steps make the article eye-catching as patchy nuances make every piece unique.

To clean, use a soft cloth without applying any product.

Ottone bronzato graffiato

La procedura è identica all'ottone bronzato.

L'effetto "graffiato" è realizzabile con un passaggio supplementare prima della finale verniciatura, rendendo una finitura satinata e meno patinata.

Per la pulitura si consiglia un panno morbido senza alcun prodotto.

OBG

Scratched bronzed brass

The procedure is identical to that of bronzed brass.

The "scratched effect" can be achieved with an additional step before final varnishing, creating a satin-finish with less coating.

To clean, use a soft cloth without applying any product.

Ottone anticato

Dopo la smerigliatura, il prodotto viene immerso in apposite vasche, incerato e rifinito a mano.

Tale lavorazione rende una finitura opaca, in quanto, non vi è alcuna applicazione di vernice.

L'effetto "anticato" si renderà sempre più caratteristico con l'usura del prodotto.

Per la pulitura si consiglia l'uso di un panno morbido senza alcun prodotto.

OA

Antique brass

After sandpapering, the product is immersed in special tanks before being waxed and finished by hand.

This process creates a dull finish as no varnish is applied.

The "antique finish" becomes more and more characteristic as the product ages.

To clean, use a soft cloth without applying any product.

Different assembling on request: +10% of price list

Condizioni generali di vendita

Prezzi

I prezzi indicati nel presente catalogo/listino sono da intendersi per merce franco fabbrica ed al netto di ogni spesa accessoria quale trasporto, imballo, ecc...

Tali prezzi sono espressi in EURO, IVA ed imposte legali escluse.

La Salice Oscar si riserva, in qualsiasi momento, di adeguare o modificare i prezzi del presente listino che comunque andranno a scadere al 01.01.17.

Dopo tale data, sarà cura del Cliente aggiornarsi per eventuali variazioni di prezzi o di sconto.

Ordinazioni

Le ordinazioni dirette ed indirette verranno considerate assunte solo al ricevimento scritto di conferma.

Gli ordini diretti saranno confermati per iscritto dai ns. Agenti di zona.

Le quantità ordinate dovranno essere conformi alle confezioni indicate nel presente catalogo.

Nel caso ci fossero delle quantità non conformi alle confezioni, i prezzi saranno maggiorati del 20% sul prezzo di listino.

È facoltà del Cliente decidere sulla quantità per quegli articoli dove non viene indicata la confezione.

Consegna

I termini e le modalità di consegna comunicate, verranno possibilmente rispettate e non saranno comunque vincolanti essendo le stesse concordate di volta in volta.

Non sono concesse modifiche e/o annullamenti durante la preparazione dell'ordine che inizierà dalla data successiva al ricevimento della commissione.

Eventuale mancanza o ritardata evasione dell'ordine, non darà alcun diritto da parte del Cliente ad annullare lo stesso o di richiedere il risarcimento di eventuali danni.

Pagamento

I pagamenti saranno considerati validi unicamente se eseguiti nella nostra Sede amministrativa.

Trascorso il termine stabilito in fattura per il pagamento, decorreranno in pieno diritto sia gli interessi di mora al tasso bancario che le eventuali spese bancarie.

Non sarà considerato un diritto dell'acquirente potersi avvalere della dispensa dal pagamento della fattura alla scadenza.

La Salice Oscar potrà rifiutare il pagamento mediante cambiale o pagamento mediante compensazione di eventuali crediti del Cliente. Il non rispetto delle citate condizioni comporterà una diminuzione della affidabilità di credito.

Imballo

Gli imballi verranno fatturati al prezzo di costo e soggetti ad IVA.

Spedizioni

La merce viene resa franco fabbrica e viaggia a rischio e pericolo del Cliente.

La responsabilità Salice Oscar termina all'atto della consegna della merce al vettore.

Sarà cura del destinatario verificare l'integrità dei colli, prima del ritiro e, in caso di avarie, sconfezionamento, rotture, furti o ammacchi, dovrà rivolgere i reclami al vettore e farne formale riserva sul documento di trasporto.

Resi e reclami

Eventuali reclami dovranno essere effettuati mediante lettera raccomandata, e dovranno essere indicati dettagliatamente i vizi e le difformità contestate.

Non saranno accettati resi se non espressamente autorizzati pattuendo, a secondo del caso, le spese di trasporto.

Trascorsi gli 8 (otto) giorni dell'arrivo della merce al Committente, la nostra spedizione si intenderà approvata ed accettata e nessun reclamo potrà essere ammesso.

Difformità sui prodotti od errori di spedizione impegneranno la Salice Oscar alla sola sostituzione dei materiali senza richiesta, da parte del Cliente, di eventuali danni.

La Salice Oscar si riserva inoltre di apportare modifiche o eliminare dalla produzione, articoli senza obbligo di preavviso e, di conseguenza, non si impegnerà alla sostituzione dei materiali giacenti presso i Clienti.

Foro competente

Per qualsiasi controversia è competente il foro di Brescia.

Dette condizioni saranno considerate accettate dal Committente con il conferimento dell'ordine e, qualsiasi condizione in deroga o comunque non citata nelle presenti "CONDIZIONI GENERALI DI VENDITA", sarà considerata valida se risultante da un accordo scritto.

General conditions of sale

Prices

Prices indicated in this catalogue/price list are ex factory and net of any additional costs such as transport, packing, etc....

Prices are expressed in EUROS and exclude VAT and taxes.

Salice Oscar reserves the right at any time to adapt or modify listed prices that shall, anyway, expire on 01.01.17

After such date, the Customer shall have to update on any price or discount changes.

Orders

Direct and indirect orders shall only be taken on receipt of written confirmation.

Our local Agents shall confirm direct orders in writing.

Quantities ordered shall comply with packs indicated in this catalogue.

Should quantities not comply with packs, listed prices shall be increased by 20%.

The Customer is entitled to decide on quantities of articles where packs are not specified.

Delivery

Advised delivery terms and procedures might be obeyed but shall not be binding as they are agreed on each time.

No changes and/or cancellations are allowed during order preparation that shall commence the day after receipt of commission.

Any lack of or delay in the expedition of the order shall not entitle the Customer to cancel it or to request any damage compensation.

Payment

Payments shall only be considered valid if they are made at our administrative office.

Once the payment term on the invoice has expired, delay interest and bank commission shall rightfully be charged.

A buyer shall not be entitled to dispense with payment of the invoice on expiry.

Salice Oscar can refuse payment through a promissory note or by offsetting any Customer's credits.

Non-obeyance of the above-mentioned conditions shall decrease creditworthiness.

Packing

Packing shall be invoiced at cost and is subject to VAT.

Consignments

Goods are delivered ex factory and travel at the Customer's risk and peril. Salice Oscar is no longer responsible once the merchandise has been handed to the forwarder.

The receiver shall check that packages are intact before withdrawing them and - in the event of faults, unwrapping, broken packaging, theft or denting – the receiver shall complain to the forwarder and express formal reservations on the transport document.

Returns and complaints

Any complaints shall be made by means of a registered letter and contested faults and defects shall be detailed.

Returns shall only be accepted if they are expressly authorized and once transport charges have been agreed on.

Once 8 (eight) days have passed from the merchandise's arrival at the Customer, our consignment shall be taken as approved and accepted and no complaints shall be permitted.

Product defects or forwarding errors shall oblige Salice Oscar to replace just the materials and the Customer shall not request damage compensation.

Furthermore, Salice Oscar reserves the right to make changes or to eliminate articles from production with no prior notice and, consequently, it shall not pledge to replace unsold materials in Customers' care.

Competent law-court

The Brescia law-court shall be competent for any dispute that should arise.

Said conditions shall be considered accepted by the Customer with the conferral of the order and any condition that departs from, or is not cited under, these "GENERAL CONDITIONS OF SALE" shall be considered valid only if it is agreed in writing.

La presente pubblicazione è di esclusiva proprietà della ditta Salice Oscar, la quale pone il divieto assoluto di riproduzione e divulgazione se non espressamente autorizzato dalla stessa. Ogni cura è stata posta nella realizzazione di questo documento; tuttavia la Salice Oscar non può assumersi alcuna responsabilità derivante dall'utilizzo della stessa. Lo stesso dicasi per ogni persona o società coinvolta nella creazione e nella stesura di questo manuale.

La Salice Oscar si riserva il diritto di apportare qualsiasi modifica o variazione di prezzo, senza preavviso alcuno e in qualsiasi momento.

This catalog and its contents remain the sole property of Salice Oscar, and shall not be reproduced or distributed without authorization. Although great care has been exercised in the preparation of this document, Salice Oscar, its employees or its distributors cannot accept any liability whatsoever connected with its use. Salice Oscar reserves the right to make any changes or improvements without prior notice.
